Funeral plan

Our Funeral Plan provides cover for funeral expenses in the event of your death or that of your spouse or children. We'll provide your family with financial peace of mind.

Funeral Plan

Making contingencies for a funeral is never something we want to have to think about, or deal with.

But it's something that could become a reality, and you'll need to be prepared.

Our Funeral Plan* provides cover for funeral expenses in the event of your death or that of your spouse or children.

We'll provide your family with reliable financial peace of mind during a difficult time.

Repatriation Service

Our Funeral Plan includes a repatriation service.

In the event of the insured's death, the next of kin may decide on the place of burial and the funeral home.

This service is only offered if both the death and burial occur within the borders of South Africa.

Funeral Plan includes cover for:

- Death as a result of HIV/AIDS-related illnesses.
- Repatriation services.

If you would like to take a closer look at what Funeral Plan covers, download our brochure.
