

Tyre & Rim Guard

Tyre & Rim Guard

Many of our roads have fallen into a state of disrepair, which poses a risk to the safety and the condition of your car.

We've developed Tyre & Rim Guard in response to the continued deterioration of the roads in South Africa, as well as the increase in number and size of potholes. Much of the time uneven roads and potholes catch drivers unaware and cause significant damage to their vehicle's rims or tyres, which can place your and your family's safety at risk.

This is why your tyres and rims need reliable care.

Fine Support

When you add Tyre & Rim Guard to your Auto & General vehicle policy, you'll get Fine Support* as part of this benefit.

Fine Support helps you keep track of traffic fines with a quick and efficient fine monitoring and notification system, and automatically attempts to obtain discounts on your outstanding infringements.

If you would like to take a closer look at exactly what Tyre & Rim Guard covers, download our brochure.

Never not there™
Auto & General
Auto&General is a licenced non-life insurer and FSP. Ts&C's online.
